# Installation

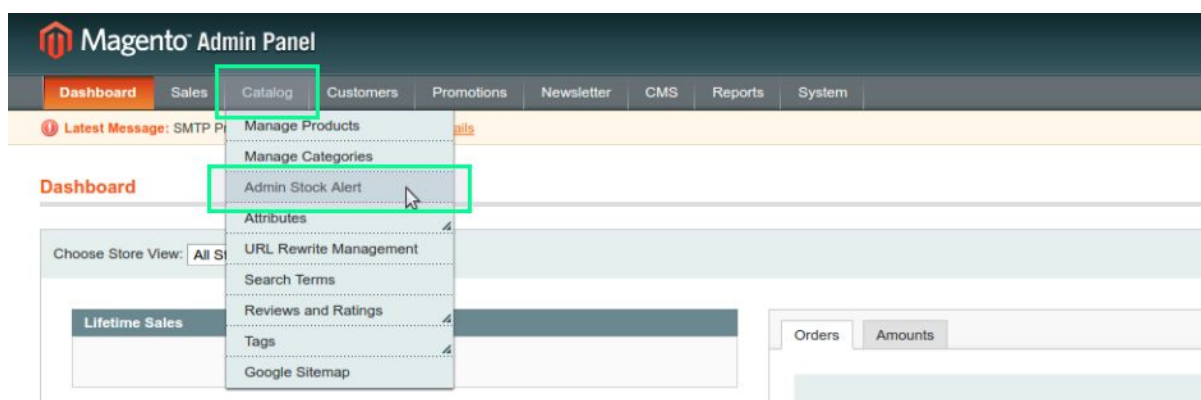

For the installation from the Magento Marketplace, please refer to the Marketplace documentation.

## How does it work

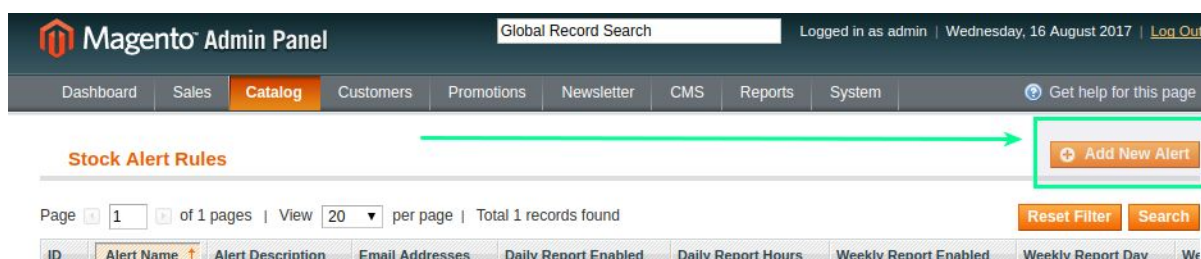

**Admin stock alert** enables people dealing with stock management of a Magento 1 store to receive daily or weekly email notification when a defined product, or product category reached a defined amount of stock.

## Alert settings

To set an alert, go to the Magento back office menu : →Catalog →Admin Stock Alert

Then click on :  
→Add New Alert

Now fill in the different information :

## Alert Information

**Alert Name** : this name will appear in the grid with the other stock alerts you created.

**Description** : daily alert for low stock of Brand red articles

**Status** : Active or Inactive alert

**Store view** : select the store view you want the alert rule to apply.

The screenshot shows the 'New Alert' form in the Magento Admin Panel. The form is titled 'New Alert' and has a 'Back' button. It contains the following fields:

- Alert Name \***: A text input field containing 'Blue Teeshirts alert'.
- Description**: A large text area for entering the alert description.
- Status \***: A dropdown menu with 'Active' selected.
- Store View \***: A dropdown menu with 'All Store Views' selected.

At the top of the page, there is a navigation bar with 'Catalog' selected. A sidebar on the left shows 'Stock Alert Rule' with sub-sections for 'Alert Information', 'Conditions', and 'Actions'. The 'Alert Information' section is currently active.

## Conditions

Now set the conditions that determine your stock alert rule.

For example, you want to receive a notification when the stock of blue teeshirts reach 4 units.

**Admin stock alert conditions** works like the **promotion conditions tool**.

Select if **ALL** or **ANY** of the conditions are **TRUE** or **FALSE**

The screenshot shows the 'New Alert' form in the Magento Admin Panel, now with conditions set. The form is titled 'New Alert' and has 'Back', 'Reset', 'Save', and 'Save and Continue Edit' buttons. It contains the following fields:

- Conditions (leave blank for all products)**: A section with a dropdown menu set to 'ALL' and the text 'If ALL of these conditions are TRUE :'. Below this, there are three conditions:
  - Category **is** **3**
  - Color **is** **Blue**
  - Quantity **is** **4**

At the top of the page, there is a navigation bar with 'Catalog' selected. A sidebar on the left shows 'Stock Alert Rule' with sub-sections for 'Alert Information', 'Conditions', and 'Actions'. The 'Conditions' section is currently active. A yellow warning message is visible at the top of the page: 'One or more of the Cache Types are invalidated: Blocks HTML output. Click here to go to Cache Management and refresh cache types.'

Then choose relevant product attribute, for instance : SKU, color, manufacturer and the Inventory Attribute (eg: quantity = 4).

**IMPORTANT :**

By default the following attributes are available :

**Product Attribute**

Attribute Set

Category

**Inventory Attribute**

Quantity

Manage stock

Stock availability

Of course you can add all the other attributes to your alert, and to add them in the dropdown menu, follow this steps :

*Catalog → Attributes → Manage Attributes :*

Select the attribute you want to add to your stock alert conditions :

Edit Product Attribute

→ Use for Promo Rule Conditions : YES

Choose the attribute, click on it to open the window "Edit Product Attribute "SKU"

Use the promo rule conditions. : YES

## Actions

First set the information provided in the email :

email addresses : email's recipient address, you can add several addresses by separating them with a comma.

attribute to show in the emails grid :

This will define which information will be displayed in the email.

**Default attributes are** : name, sku, qty, is in stock

You can add other attributes that will be displayed into the grid of the email. You can find all the attributes id by clicking on the link : You can find product attributes [here](#).

Order\*\*\*\*

attribute\_id  
Attribute to show in the emails grid \*

**Stock Alert Rule**

**New Alert** [Back] [Reset] [Save] [Save and Continue Edit]

**Alert configuration**

Email Addresses \*   
▲ Separate each address with a comma.  
 ▲ This is a required field.

Attribute to show in the emails grid \*   
▲ Separate each attribute with a comma.  
 You can find product attributes [here](#).  
 For inventory attributes you have :

- Quantity : `qty`
- Stock Availability : `is_in_stock`
- Manage Stock : `manage_stock`

Daily Report Enabled   
▲ Enable daily report hour.

Daily Report Hour   
▲ Set daily report hour.

Weekly Report Enabled   
▲ Enable weekly report.

Weekly Report Day   
▲ Set weekly report day.

Weekly Report Hour   
▲ Set weekly report hour.

**Manage Attributes** [Add New Attribute]

Page 1 of 3 pages | View 20 per page | Total 42 records found [Reset Filter] [Search]

Attribute Code	Attribute Label	Required	System	Visible	Scope	Searchable	Use in Layered Navigation	Comparable
color	Color	No	No	No	Global	Yes	Filterable (with results)	Yes
cost	Cost	No	No	No	Website	No	No	No

Then set the frequency of the notifications (daily or weekly) :

Daily report enabled : YES or NO

Daily report Time : every hour from 00:00 to 23:00

Weekly Report enabled : YES or NO

Weekly report Day : select one day of the week

Weekly report hour : every hour from 00:00 to 23:00

If the conditions are not verified, you won't receive any email.

## Email's settings

You can manage some settings like the email sender or which email template will be used  
*System* → *Configuration* → *Blackbird extensions* → *Admin stock alert*

Enabled : you can activate the notification system of not.

Email information : select the email sender

Report email Template : Choose the email template

The screenshot shows a web application interface with a top navigation bar containing 'Dashboard', 'Sales', 'Catalog', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Reports', and 'System' (highlighted with a red box). Below the navigation bar is a message: 'Latest Message: SMTP Pro was installed successfully. [Read details](#)'. The main content area is divided into a left sidebar and a main panel. The sidebar has a 'Configuration' section with a 'Current Configuration Scope' dropdown set to 'Default Config' and a 'Manage Stores' link. Under 'Configuration', there are sections for 'GENERAL', 'CATALOG', and 'BLACKBIRD EXTENSIONS' (highlighted with a green box). The 'BLACKBIRD EXTENSIONS' section includes 'Admin Stock Alert'. The main panel is titled 'Admin Stock Alert' and contains two sections: 'General Settings' and 'Email Information'. 'General Settings' has an 'Enabled' dropdown set to 'Yes' and a '[STORE VIEW]' link. 'Email Information' has an 'Email Sender' dropdown set to 'General Contact' and a 'Reports Email Template' dropdown set to 'Blackbird Stock Alert - Reports (Default Template)'. Both dropdowns in the 'Email Information' section have '[STORE VIEW]' links. A small note below the 'Reports Email Template' dropdown says '▲ Set reports email template.'

## Templates of emails

It is also possible to add a **new email template**, for example if you need the email in different languages.

To add a new template of email, go to System --> Transactional Emails--> + Add a new template.

Select the default template "Blackbird Stock Alert - Reports" and Load Template  
Enter a new name for the template, add your changes or languages translations and Save the Template.

The screenshot shows the Magento Admin Panel interface for creating a new email template. The page title is "New Email Template". At the top, there is a navigation bar with tabs for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System. A search bar and user information are also present. A warning message at the top indicates that some cache types are invalidated. The main content area is divided into two sections: "Load default template" and "Template information".

Annotations on the screenshot:

1. Points to the "System" tab in the navigation bar.
2. Points to the "Template" dropdown menu in the "Load default template" section, which is currently set to "Blackbird Stock Alert - Reports".
3. Points to the "Load Template" button in the "Load default template" section.
4. Points to the "Template Name" input field in the "Template information" section.
5. Points to the "Template Content" text area in the "Template information" section, which contains HTML code for a stock alert email.
6. Points to the "Save Template" button in the top right corner of the form.

The "Template information" section includes fields for "Template Name", "Template Subject", and "Template Content". The "Template Subject" field contains the text "Stock Alert - {{var alertName}}". The "Template Content" field contains the following HTML code:

```
<table style="margin: auto; border-spacing: 20px">
<tr><td><p>Hello!</p></td></tr>
<tr><td><p>Here is your stock alert report.</p></td></tr>
<tr><td><p>{{var stockProducts}}</p></td></tr>
<tr><td align="center"><p>Thank you!</p></td></tr>
</table>
```
